

## Would you like to help NASA inspire kids?

- Do you enjoy **learning and talking about science and space**?
- Are you interested in **working with students**?
- Have you always wanted to **meet world-class NASA scientists**?
- Would you like to **be part of a team inspiring students** to pursue careers in science, technology, engineering and mathematics?

The NASA Ames Exploration Encounter (AEE) is housed in a renovated supersonic wind tunnel at NASA Ames Research Center in Mountain View, California. This dynamic program makes math and science curriculum come alive as students experience the subjects in action and realize the connections to their lives.

The AEE provides state-of-the-art technology to enhance student learning through hands-on activities, cooperative learning, and active discussions. The highly-trained docents serve as role models for all participants and promote the AEE philosophy: to engage and inspire while making learning fun!

### The AEE is the place for you!

For more info, visit: <http://encounter.arc.nasa.gov>  
[www.nasa.gov](http://www.nasa.gov)

### Schedule a visit to see us in action.

**AEE Docents are needed for AM and PM shifts:**

- **Morning Classes**  
Monday–Friday, 9:30am–12noon
  - **Afternoon Classes**  
Monday–Thursday: 1:00pm–3:30pm
- 
- **Volunteers must be 18 years or older.**
  - **Bilingual English/Spanish is a plus.**
  - **All volunteers receive comprehensive orientation and training.**

Docents are permitted to attend lectures from NASA scientists and participate in special NASA facility tours not open to the general public.
